Keynote Speaker:

Pamela M. Rauch

Vice President, External Affairs
and Economic Development

FPL FOR:

TITLE SPONSOR:

Florida Power & Light Company is in the midst of one of the largest solar expansions in the U.S. which has boosted Florida to sixth in the nation for total installed utility solar capacity. With more than 935 megawatts of solar in operation, FPL continues to develop and build solar energy centers across Florida with four new solar power plants currently under construction. These projects provide many benefits including local job opportunities as well as adding to the county tax base. Please join us to hear from our Keynote Speaker, Pamela Rauch, on the positive economic impacts the solar industry is producing for us all.
