MWANA VILLAGES

We believe that the transformation of one life at a time can profoundly impact the global approach to the world's vulnerable. Mwana Villages is a grass-roots ministry whose vision is to provide orphaned and vulnerable children and their families with transformative hope and a future. Based in the Republic of Congo, Mwana adopts a holistic model of serving the Littles, Bigs and Mamas, prioritizing family preservation and reunification, working toward self-sufficiency in dignifying ways. Our counter-cultural model is profoundly affecting the societal, institutional and global approach toward the orphan crisis. We invite you to be a part.
